

BINGARA GORGE

BENEFITS OF HOME & LAND PACKAGES

DESIGNED TO SUIT THE BLOCK

A home and land package has been designed to suit a specific block giving you peace of mind that the home's orientation and layout will be optimised for energy efficiency and running costs. The range of packages at Bingara Gorge include homes to suit every family size and most budgets and they're designed by some of Sydney's best builders.

DESIGNED TO SUIT THE ENVIRONMENT

All the home and land packages at Bingara Gorge comply with the design guidelines and have been designed to suit the estate. Facades that include natural elements such as timber and stone fit well within the environment and they contribute to the estate's premium aesthetic.

NO SURPRISES & TIME SAVED

Home and land packages come with an all inclusive price with no hidden costs and include every home feature you require for a brand new home. Some packages even come fully landscaped (including fencing and driveway!) with the house and garden carefully planned to complement the surroundings. This saves a significant amount of time during the design phase and helps prevent budget issues.

PLENTY OF CHOICE

You still get plenty of opportunity to add your style and personality to the home by choosing the finishes, flooring, colours and furniture that you like.
